GPS Train Navigation System

Railway cars drivers support system

COMPUTEX2014
Third Hall
Booth No.G0355

- ◆ In-car device for safe driving support
- ◆ Distinct alerts
- ◆ Compact and Attachable / detachable easily

- Prevents interference with driving caused by a driver's mistakes such as a false passage of a stop station. Calls attention by **the display, LED-lights, and voice.**
- Supports drivers accurately in all of the sections including locations where GPS electric waves cannot be received like tunnels or underground stations, **using radio communication** by installing simple devices on the ground.
- **Hand-held** device which measures present position by GPS. It is not necessary to remodel cars basically in order to install the units.

Marketed by:  **Kintetsu Railcar Engineering Co.,Ltd.**
